1/10 SCALE EXPERT RACING SEDAN

PRESS RELEASE

21st November 2005

LOSI has performed very well this weekend with young gun privateer Steven Jovanovic taking an amazing 4th with his LOSI JR-XS in the Modified Class. Amongst strong opposition, Jovanovic took a 4th, 3rd, 4th in his 3-leg final to cement his position against many factory sponsored drivers, including visiting Dutch driver Niels Koenkoop.

LOSI and JR-XS achieved the highest overall results of any car manufacturer for the weekend, and following the lead of Jovanovic, Tim Gaukroger and Jarrod Currie managed A-Final positions in Modified Class.

19 Turn Modified also saw great results from LOSI, with Daly May and Jamie Nancarrow unlucky not to place higher in the A-Final.

2005 South Australian 1/10th Electric Championships sponsored by TEAM LOSI Sport Australia
